

Civil Service Position

- To apply for a Civil Service Position, you must take the appropriate Civil Service Exam.
- Procedures to complete an application for testing can be found at: www.scsc.state.pa.us
- After you take the Civil Service Exam you will be placed on the list for the specific job that you tested for according to your score.
- When a Civil Service position is posted and filled through the Civil Service list, you will receive a survey asking for your availability for a specific job. The top 3 available applicants are interviewed (this is considered “the rule of 3”).
- Once you have worked in a Civil Service position for 6 months and passed your probationary period, you then have “permanent civil service status.”
