(*) "Total Persons HUD Low/Mod Universe" is not necessarily the total population as based on the U.S. 2000 Census, but the maximum number of persons that have the potential of being classified as low/mod. HUD's formula for calculating low-moderate income persons includes persons residing in households and excludes persons residing in group quarters. The group quarter population includes persons under formally authorized supervised care or custody such as correctional institutions, nursing homes and juvenile institutions. The group quarter population also includes non-institutionalized persons living in group quarters such as college dormitories, military quarters, and group homes.

(x) Includes inmates at SCI Albion Prison
