

AIR QUALITY DETERMINATION REPORT for ERIE COUNTY, PA

There are no changes to the existing approved conformity determination for the Erie MPO. The FFY 2013–2016 TIP has undergone interagency consultation among PennDOT, the Pennsylvania Department of Environmental Protection (DEP), Federal Highway Administration (FHWA) and the Environmental Protection Agency (EPA) and the following criteria have been met:

- 1. No regionally significant project has been deleted from the Erie MPO TIP or Long Range Transportation Plan.*
- 2. No phase of a regionally significant project has been rescheduled to cross a prior analysis year.*
- 3. No change in the scope has been made to a regionally significant project.*
- 4. It has been less than four (4) years since conformity was determined.*

Therefore, a new conformity analysis for the Erie MPO FFY 2013–2016 TIP does not need to be performed. The prior air quality reports are still valid.
