^Crude rate per 100,000 population ; Current year populations used for rate calculations

\*As of December 31, 2008; All Erie County and PA counts represent reported cases

\*\*As of December 31, 2007; Reported cases are from areas with confidential name based HIV infection reporting (37 states, the District of Columbia, and 5 U.S. dependent areas in 2007)

In 2005, the CDC recommended that all states and U.S. dependent areas adopt confidential, name-based HIV infection case reporting; PA initiated confidential name-based reporting in 2002

\*\*\*Estimating case counts adjusts for reporting delays and missing risk-factor information but not for incomplete reporting
