County Executive Announces Erie County Directors' Open House

In recognition of National County Government Month and National Public Health Month, Erie County Executive Kathy Dahlkemper and her administrative team will host an Erie County Directors' Open House on Saturday, April 25, 2015 from 10:00 AM – 1:00 PM at the Erie County Department of Health located at 606 West Second Street.

Each County Director will showcase the services that their department provides. Departments to be represented include the Administration, Corrections, Public Health, Human Services, Information Technology, Human Resources, Public Safety, Planning, Finance, the Office of the Public Defender and the Erie County Public Library.

In addition to each department's presentation, the Erie County Department of Health will host an Open House throughout the facility. Visitors are invited to tour the health department, participate in blood pressure screenings, a driving simulation, summer food safety tips, beach water sampling, and enter a drawing to win a Fitbit.

County Executive Dahlkemper and her administration look forward to celebrating National County Government Month and meeting with the citizens of Erie County. "Erie County is proud of the programs and services provided to the public. I encourage all county residents to participate and to learn how their government is working for them every day to provide a healthy, vibrant, and safe county," said the County Executive.

National County Government Month is celebrated each April. This is the second annual event to raise public awareness to the workings of Erie County government.
