Shared Space: Cooperate Extension Joins Erie County Department of Health

Erie, PA – Erie County Executive Kathy Dahlkemper in conjunction with the Erie County Department of Health (ECDH) and the Erie County Cooperative Extension will hold a media conference on Friday, December 11th at 10:00 AM at the Department of Health located at 606 West Second Street.

“Our vision to become a model county includes strengthening partnerships with community organizations. Welcoming the Cooperative Extension creates opportunities to collaborate, connect, and increase our collective impact in the county,” said County Executive Dahlkemper.

The relocation of the Erie County Cooperative Extension is exciting for both agencies and presents the possibility of working together on larger health and environmental priorities. It has been supported by ECDH Director Melissa Lyon and Jonathan Laughner, District Director of the Cooperative Extension. Both agencies are enthusiastic about the relocation and the potential to partner on key initiatives.
