Total	5,102	100%

* The Low/Mod Universe is not the total population as based on the U.S. 2010 Census, but the maximum number of persons that have the potential of being classified as low/mod using 2006-2010 ACS data. HUD's formula for calculating low-moderate income persons excludes individuals residing in group quarters under authorized supervised care or custody such as correctional institutions, nursing homes and juvenile institutions. It also excludes non-institutionalized persons living in group quarters such as college dormitories, military quarters, and group homes.
