White House Selects Dahlkemper For Governance Coordinating Committee

Erie, PA – Erie County Executive Kathy Dahlkemper has been selected by the White House to serve on the National Ocean Council's Governance Coordinating Committee (GCC). Dahlkemper is one of 18 members selected nationwide.

The GCC is an advisory body that makes recommendations to the National Ocean Council on matters of inter-jurisdictional collaboration. Additionally, the GCC makes recommendations on policy issues relating to the oceans, coasts, and Great Lakes.

"It is an honor to be the voice of the Great Lakes on the National Ocean Council," said Dahlkemper. "The Great Lakes are one of our country's greatest natural resources and certainly an asset to Erie County. I look forward to working with the GCC to find ways to enhance collaboration on the salient policy issues facing our nation's waters," said Dahlkemper.

Serving a two-year term, GCC members bring diverse experience on state, local, and tribal policy issues and are a critical component of the National Ocean Council.
