THE COUNTY OF ERIE IS AN EQUAL OPPORTUNITY EMPLOYER. MEN AND WOMEN OF ALL MINORITY AND NON-MINORITY GROUPS INCLUDING INDIVIDUALS WITH DISABILITIES ARE ENCOURAGED TO APPLY.

ALL NEW HIRES ARE SUBJECT TO A CRIMINAL BACKGROUND CHECK.

The Erie County Department of Planning and Community Development is a dynamic and creative team committed to improving quality of life in Erie County through its programs and services. The department serves our communities in a variety of program areas including but not limited to transportation, recycling, municipal assistance, community development, water resources, coastal resources, and greenways. Team members are challenged to develop innovative solutions to community development in Erie County.

DEFINITION OF CLASS:

This is an advanced level professional position responsible for the coordination, administration and execution of the Data Center activities within the Department. The professional in this class coordinates and performs activities with local, state and federal agencies, in accordance with current Federal and state rulemaking establishing the required decision-making framework and cooperative processes.

The position requires a responsible mature professional who is capable of working independently as well as supervising other staff on various projects as needed. Supervision is received from the Director, with the work being completed requiring final review by the Director for completeness, quality and adherence to established standards. The Director may also assign additional work tasks within any of the program areas of the department.

DUTIES & RESPONSIBILITIES:

This position will be responsible for the successful coordination of the Erie County Community and Economic Development Data Center. This position will coordinate closely with Data Center partners and local policy makers to support data driven decision making and support data driven decisions for public and private investment in the region. This position is expected to develop and implement services and analyses

according to local priorities and needs requiring a high level of coordination and relationship building with local elected officials, policy makers, economic development professionals, and private sector stakeholders. Duties for successful program development include but are not limited to project management, grant writing, grant contract administration, scope of work and budget development, professional planning and analysis, and public outreach. The successful candidate will be a team player that is willing to collaborate and adapt programs and services to the needs of our communities.

The above statements reflect the general details considered necessary to describe the principal functions of the job and shall not be considered as a detailed description of all the work requirements that may be inherent in the job.

KNOWLEDGE, SKILLS, & ABILITIES:

- Solid project management and project leadership skills: planning, estimating, establishing teams, evaluating stakeholder investment, determining milestones, maintaining communications, measuring results.
- Strategic and tactical thinking/planning skills.
- Demonstrate creative problem-solving skills in solving less well-defined practical problems.
- Involve others in problem solving and decision making to gain diverse perspectives.
- Manages workload including a variety of projects, communicate with team, and meet deadlines.
- Comprehensive knowledge of the principles and practices of planning, including knowledge of research methodology (statistical and mathematical techniques).
- Demonstrates knowledge of ESRI ArcGIS software (10.x) including, but not limited to editing data, creating data, modifying geographic data, and ESRI Toolsets
- Experience with data processing and management (DBF, spreadsheets, Access databases, geodatabases)
- Experience utilizing spreadsheet software for statistics (Excel, STATA, SPSS, SAS, R, etc.)
- Experience utilizing data visualization tools (Tableau, PowerBI, etc.)
- Familiarity and involvement with transportation planning and programming regulations.
- Ability to extract, organize, analyze, and present data, and express ideas clearly and concisely in oral, written and graphic form.
- High level technical competence with Microsoft software is required.
- Ability to establish and maintain effective working relationships with co-workers, staff of other agencies, public officials and the general public; good judgment and initiative.

MINIMUM REQUIREMENTS/QUALIFICATIONS:

Seven (7) years of progressively responsible professional experience as a business, economic, real estate, or GIS analyst; **OR** Bachelor's degree in economics, business intelligence, GIS or a related field and two years of progressively responsible professional experience in local, county, or regional planning or zoning; **OR** a Bachelor's degree in an unrelated field and three years of progressively responsible professional local, county, or regional planning, zoning, planning or zoning, **OR** a Master's degree in business intelligence, economics, GIS or a related field and one year of professional work experience as a business, economic, real estate, or GIS analyst.

Possession of a valid automobile operator's license; and availability to travel throughout the Commonwealth as required.
